

# TOPICS

## Darwinism: Massacred By A Monarch

Darwinian theory is destroyed by the powerful evidence of Divine design exhibited in the metamorphic life cycle and precision navigation capabilities of Monarch butterflies.

## A Deluge Of Evidence: Noah's Flood And The Historical Roots Of Secularism

Noah's Flood holds the biblical worldview together, but mainstream geological thinking denies it ever occurred. The growth and influence of these ideas within our culture have stigmatized the Bible as untrue, and opened the door to negative social changes.

## Whatever Happened To The Woolly Mammoths?

This talk shows that the woolly mammoth lived during the Ice Age. It focuses on the mammoths in Siberia and answers many mysteries of why they would live in there, what they would eat, and how they died.

## Mega Catastrophe: Evidence For Planetary Disaster Of Biblical Proportions

In this presentation we will examine example after example of amazing geologic features visible around the world, that point to mega catastrophe.

## Evolutionism: The Religion That Offers Nothing

Famous scientists claim that everything literally came from nothing. This presentation documents that their view is religiously motivated, based on a false interpretation of scientific data, and is contradicted by established laws of science.

## What Is Man? The Incredible Design Of The Human Body

The human body is a wonder of God's creation that provides many extraordinary examples of intelligent design that defy evolutionary explanation.

## Once Upon A Time: Understanding The Mythology Behind Radioactive Dating

This presentation demystifies radioactive dating, explaining in simple, everyday terms, the principles behind the method, and why it is not all that it is claimed to be.

## What Does The Lake Missoula Flood Teach Us?

This talk describes the abundant evidence for the existence of glacial Lake Missoula at the peak of the Ice Age and its bursting forth creating the Channeled Scablands of eastern Washington in a matter of days. The features of the Scablands are similar to features all over the earth, caused by a global Flood.

## SPEAKERS

### Tas Walker

Tas Walker has B.Sc. in Earth Science and a Ph.D. in Mechanical Engineering. He works full-time researching and speaking for Creation Ministries International and is the geological editor of CMI's Journal of Creation. Tas worked for over twenty years in power station design and operation, and in the geological assessment of coal deposits

### Michael Oard

Michael is a creation scientist with a specialization in Atmospheric Science. He is a prolific author who has published numerous books and papers in widely recognized creationist and secular journals. He worked for close to 30 years as a meteorologist/weather forecaster with the (US) National Weather Service, and now dedicates much of his time to creation science research.

### Thomas Kindell

Thomas Kindell has received advanced training in scientific creationism through the Graduate School of the Institute for Creation Research in Santee, California. He received his M.A. in Biblical Studies from California Graduate School of Theology. He holds a Doctorate in Philosophy of Theology. Dr. Kindell is the founder and president of Reasons for Faith Ministries, Inc.

### Chris Ashcraft

Chris obtained an MS in biology from Texas Tech, an M.Ed. from UW, and an MTMS from SPU. He is a high school science teacher at Cedar Park Christian Schools, and previously worked in biotechnology where he specialized in genetic transformations. He also speaks on creation apologetics at regional churches, Christian schools, teacher conventions, and creation organizations.
